

09:01:24 From Lisa Jobe-shields : that is GOOD!!!!

09:06:40 From Mary Giliberti -MHA : Does anyone know how much crisis in Medicare would cost? I don't think it has ever been scored but wonder if there are any other studies?

09:07:30 From mboylan : On commercial and Medicare side, one solution is to start with billing unbundled service codes. 90791, 90792, 99211-215, 90853, 90832-39. Elevated rates argument can be made since many of your services can speak to guaranteed access to care.

09:08:52 From Linda Grove-Paul (she/her) : that is great to hear about communication plan.

09:09:17 From Laura Evans, Vibrant Emotional Health : CTIA Blog Post here:
<https://www.ctia.org/news/wireless-providers-are-making-it-easier-to-access-the-national-suicide-prevention-lifeline-by-enabling-9-8-8-calling-ahead-of-schedule>

09:10:00 From Paul Galdys : Hi Mary. We can project Medicare cost with the Calculator but not aware of much data that would drive Medicare member specific utilization data since they do not cover mobile and receiving center services.

09:10:14 From Beck : Panic seems accurate. Lol

09:10:48 From John Palmieri (SAMHSA) : <https://www.ctia.org/news/wireless-providers-are-making-it-easier-to-access-the-national-suicide-prevention-lifeline-by-enabling-9-8-8-calling-ahead-of-schedule>

09:10:56 From Mike Hogan : i dont know of anything specific in Medicare. I think the tangentially related precedent is that diversion alternatives (starting with intensive IOP) specifically mobile and crisis respite costs less than inpatient. But the Medicare benefit is outdated, and doesnt yet include crisis

09:11:11 From David Westbrook - Lines for Life : There's a lot of concern in states about the lack of federal funding and at the same time a lot of states aren't stepping up. It will be an issue if we don't get this figured out.

09:11:38 From Paul Galdys : Mike is right about our ability to secure partial payment from Medicare and commercial payers for crisis interventions by billing the more widely reimbursement professional services that are otherwise billed through a crisis code.

09:11:57 From Leigh Ann Fitzpatrick : Please mute if you are not speaking

09:14:48 From tom betlach : Mary - I agree with Paul - the calculator is the best tool I have seen - markets vary in terms of what percent of the population is covered by Medicare but the calculator could also be used to develop a national model assumption

09:15:43 From Amy Pugsley : Excellent points Meighan, such an important aspect for the deaf and hard of hearing community

09:15:45 From Lisa K. Jackson (she/hers) : Thanks for bringing attention to the deaf and hard of hearing community.

09:15:48 From Preston Looper : Would love for this group to explore a BIG approach to workforce-like an AmeriCorps partnership

09:16:03 From Lisa St. George : Meighan Haupt thank you for being here to clarify and help us begin to understand the deaf and hard of hearing community and special considerations around 988 that must be taken into planning.

09:16:07 From Melissa Toffolon : Can you please send out the link for that presentation on Friday Meighan?

09:16:13 From Julia Benton : What are the details about the Friday meeting? Can we attend?

09:16:24 From Chauna Brocht : Can someone post the article from Modern Health Care on workforce?

09:17:51 From tutterman : We (NRI and NASMHPD) are in the process of doing a survey of state MH agency experiences working on 988 and how they are coordinating with existing state crisis hotlines/warmlines. The survey questions are based on input from a number of states and Vibrant. We should have results in early August.

09:21:24 From Angela Kimball : That is wonderful news, Ted! This would be very helpful.

09:26:19 From Betsy Hammar : This map is very beneficial for our Advocacy & Policy key state stakeholders, thank you.

09:28:04 From Linda Grove-Paul (she/her) : Are we getting copies of these slides after the call. if so, who is it coming from?

09:28:26 From Kathleen Burns she/her/hers : yes, I would like them too

09:28:29 From Georgia Kinsley : <https://talk.crisisnow.com/calls/>

09:28:49 From Laurel Stine : Please note that Connor Jobes left AFSP on July 30th. I noticed his name was on one of the slides. Thank you.

09:29:40 From Laurel Stine : Correction: Connor Jobes left AFSP on June 30th

09:38:52 From Stephanie Hepburn : Total Cost of Care Model:
<https://innovation.cms.gov/innovation-models/md-tccm>

09:45:40 From Julia Benton (AccessSOS) : Hi all, so grateful to be here today with this community. I am an intern for AccessSOS, a nonprofit that making 911 accessible across the US for people who are deaf and hard-of-hearing. We're looking to conduct interviews to ensure that we thoughtfully integrate social services in the first response process. If any crisis intervention professionals might be willing to talk with us, we could be so very grateful. Please feel free to message me here or email me at julia@accessos.io Thank you!

09:50:07 From Toyin Ola : Thank you for sharing about AccessSOS, Julia. I will be in touch to learn more. In planning for 988 and related initiatives here is VA, we have been grappling with language access for individuals with LEP and Deaf/HoH individuals. I see from the webpage that AccessSOS is working to tackle both.

09:52:49 From Paul Galdys : Mary... very rough initial estimate on Medicare projection on crisis care is somewhere around \$40 million on mobile and \$280 million on receiving center but that math likely needs more attention.... including some adjusting to account for dual eligible that currently fall into the Medicaid bucket.

09:53:58 From Paul Galdys : Strong structure Tequila.

09:54:08 From Lisa St. George : Julia, RI International has a peer training developed for the purpose of training individuals who are deaf or hard of hearing to work as peer supporters. Please contact Lisa.St.George@riinternational.com if you would like to know more. It took years to develop it and we have trained facilitators who are ASL interpreters etc.

09:55:05 From Rachael Drew : Fascinating and informative call - very happy to be able to join today. I work for MIT Solve, and we are currently running an innovation challenge with Stand Together Ventures Lab - the Unbundle Policing: Reimagine Public Safety Challenge. I'll hopefully share more information at the next meeting, but wanted to put it on your radar, as this Challenge seeks innovators in the healthcare, tech, entrepreneurial, activist, first responder, and dispatch fields!
<https://solve.mit.edu/challenges/unbundlepolicing#challenge-subnav-offset>

09:55:40 From Lisa Jobe-shields : great presentation. so interesting!

09:56:49 From Lisa Jobe-shields : is the regional funding on an ongoing basis or to launch the program?

10:00:24 From John Palmieri (SAMHSA) : sorry I am on another call
