

08:59:20 From Jack Rozel (He/Him) : Sounds terrible, Margie. Time to move to Pittsburgh.

08:59:24 From Melissa Schober : 87! I'm envious. The heat index today in Baltimore is a miserable, humid 105.

09:08:18 From Annette Marcus : In Oregon we have clear training requirements for peers --- and they are playing essential roles in many different situations, particularly wrap around. That idea of giving a choice of peers at the beginning of a call is great.

09:08:28 From kevin Huckshorn : The [Crisisnowacademy.com](https://www.crisisnowacademy.com) has a number of faculty who can help clarify and support Peer Support Specialist services and Scope of Practice, job descriptions and competencies.

09:08:45 From Sarah Porter : That's such a great point about unequal pay rates for peers.

09:12:28 From Whitney|CLASP| she/hers : what was the name of the first work group?

09:17:05 From Christie Penn : They are great reports!

09:18:00 From Mike Hogan : as crisis bg set aside goes to 10%, as it did with FEP, we'd be smart to think about data expectations for crisis. Right now there's not much. EpiNet is a model

09:19:00 From Susan Robinson : Agree, Mike this would be very helpful across states

09:19:41 From Margie Balfour : Totally agree Mike. I'd be happy to help work on that if needed. I have a head full of crisis metrics :-)

09:21:19 From Mike Hogan : Our federal colleagues have to lead this...which they should, ruthlessly

09:23:14 From John Draper : Maddy's study is a crucial read. Chat and text—at this point in time—are serving more young women and adolescent girls. This is a group that is showing steadily increasing suicide rates since 2007....

09:29:08 From Whitney|CLASP| she/hers : What were the name of the programs in the stand up act

09:30:31 From Matthew Goldman : Here's the link to the article on the publisher website:

09:33:53 From Anita Everett : Great series on states to have in the library and available for access to states and other stakeholders.

09:35:11 From John Draper : Very useful format David, and love how Rep Orwall and the Washington legislators are establishing a model for how to use the fee to fund a transformation in state-wide crisis services

09:36:09 From Sally she/her : Rep Orwall is a Wash State Rockstar!!

09:36:21 From Lynda Gargan : Rep Orwall, are families being included in these conversations?

09:36:22 From Anita Everett : so if i undertsand this, for basically a quarter per year per phone owner, Washington gets crisis call center?

09:36:23 From Ruchi Sukhija : Love the format, David - simple and informative! Thanks, Rep Orwall, for helping with this!

09:37:06 From Stacey Williams, DMH : Missouri is applying

09:49:30 From echestnut-ramirez : If anyone wants to discuss mobile crisis implementation, feel free to email me as well. Erica.chestnut-ramirez@lafrontera-empact.org

09:50:31 From Paul Galdys : Hi Anita... I believe the \$0.24 Washington fee is a monthly fee per line.

09:51:12 From Suzanne Rabideau : Wendy - Can you share the sources of funding for these peer services - likely a braided approach?

09:52:25 From Sarah Krassenbaum : * how do you screen for high risk situations where someone may need to transfer to an ED?

09:53:19 From Rep. Orwall 33 : Aww thank you Sally! Lynda, the most important voices at the table for planning are people with lived experiences which includes families! We plan to start every planning meeting with someone sharing their story so we can understand what is broken and how to fix it.

09:53:23 From Laura Van Tosh : Hat tip and major bow to Larry Fricks for all his early work on peer support and his navigation with Medicaid. This growth is incredible.

09:54:20 From Jose Viruet- Erie Family Health Center : This is a robust and intentional application of Peer Support Services. Amazing work!

09:54:41 From David Covington : Terrific matrix!

09:54:57 From kevin Huckshorn : Dltto that Laura! Larry and so many of you guys were our pioneers!

09:55:08 From Mike Hogan : Amen on Larry's leadership. Wendy...about how many peers are certified in GA?
