08:55:30 From Kristen Ellis : I mean, David medaled in his age group, too!

08:55:34 From Barb Rainish : thanks

08:56:20 From BChakanyuka : Hello Everyone Babra C from Indiana

08:56:35 From Karen Jones : Well, that can mean so many things! Sprinting, marathon runners, or even a MasterChef! :)

08:56:47 From Suzanne Rabideau : how about boating - not sure of medaling except for sailing

08:57:09 From Suzanne Rabideau : in the desert I boat all the time

08:57:22 From Susan Robinson : Baking! Blue Ribbons!

08:57:51 From David Covington, LPC, MBA RI International (he/him) : Yum Yum!

08:58:09 From Karen Jones : Welcome to the 988 Crisis Jam, everyone!

08:58:10 From Kristen Ellis : Same here, laura. Although sourdough is the easiest for GF to digest.

08:58:10 From Tina Orwall, Rep (she/her) : There are excellent gluten free breads!!

08:58:13 From Gerald Stansbury (Solari) : Good morning Laura

08:58:22 From Kristen Ellis : Still not easy, though

08:59:03 From Tina Orwall, Rep (she/her) : Will send!!

08:59:44 From Susan Robinson : oh yes - great new recipes w/o gluten ;-)

08:59:55 From Jennifer's iPhone : Go Laura!

08:59:56 From William Dickson NY : Poolside BBQs and golf.

09:00:38 From Karen Jones : I enjoyed the Saguaro National Park. Who would have thought looking at cacti were so relaxing!

09:01:46 From Karen Jones : Send us your photo if you are on the Top Jammers list!

09:01:48 From Paul Galdys, RI International : Welcome to the Jam MTTC and RTI International!

09:10:01 From Jennifer's iPhone : are patients with SMI at higher risk for dementia in the future?

09:12:01 From David Covington, LPC, MBA RI International (he/him) : How Arizona can improve care for its sickest mental health patients - Dr. Olson on The Show, January 2022 with other AZ healthcare leaders - <https://theshow.kjzz.org/content/1748345/how-arizona-can-improve-care-its-sickest-mental-health-patients>

09:14:44 From Paul Galdys, RI International : Although a vast majority of individuals in crisis are able to receive their care in a crisis receiving center, Dr. Olson and her team have always worked to accept those with complex physical health needs while advocating for services that align with the needs of the individual.

09:15:04 From Paul Galdys, RI International : Which often means advocating for additional focused resources in the community

09:17:35 From Tansy McNulty : Is the definition of milieu "social environment" in that example?

09:17:46 From Tansy McNulty : Just want to make sure I understand the terminology

09:21:17 From Paul Galdys, RI International : Really impacts flow when these individuals with complex needs are denied care by so many and remain in your facility for months at a time. More programs need to find a way to say YES!

09:22:16 From Marcus Biswa : Yes I agree.

09:22:26 From Brian Hepburn : Those hospitals that are not accepting all individuals referred appear to be violating EMTALA.

09:23:02 From Dawn Peel : We will be opening a med psych unit in Georgia in the near future. If anyone has contact information for existing med psych facilities please let me know. Thanks

09:23:03 From Billina R. Shaw, MD, MPH : I think the core of this are layering degrees of stigma and discrimination (neurocognitive, personality, neurodevelopmental) superimposed on the underlying behavioral health stigma....great potential tangible solutions though!

09:23:35 From Paul Galdys, RI International : Yes Dr. Shaw!

09:24:07 From Lisa St. George : Thank you Dr. Olson. That information is so important.

09:24:34 From David Covington, LPC, MBA RI International (he/him) : Very common excuse for excluding a referral to crisis or inpatient facility... "will disrupt our milieu"

09:24:39 From Chuck Ingoglia (he/his) : The SNF situation is complicated by the fact that CMS has put a lot of pressure on them to reduce the amount of anti-psychotic medications that are being used in those facilities.

09:28:12 From Monica Luke - she series - LAF : As a family member, this "cherry-picking" of what patients will be served is incredibly frustrating. Thank you for the clear description on the business drivers and policies

09:29:21 From Stephanie Barrios Hepburn : Great points re: agreements and partnerships, Dr. Pinals.

09:29:55 From steve whitefield : Any State doing bed buy purchases of care of private psych beds so high acuity involuntary patients are more likely to be accepted?

09:30:13 From Suzanne Rabideau : Bottom line another example of what Patrick Kennedy has talked about for years - obstacles for parity in behavioral health treatment .

09:31:30 From Megan Celedonia GOV Office (she/her) : Has care coordination in Az improved with RHBAs assigned patients with SMIs?

09:31:52 From Paul Galdys, RI International : Perhaps there needs to be differential payment structures based on the acuity of the individual... creating financial incentives for providers to serve all individuals.

09:33:19 From Suzanne Rabideau : Across the nation, there are not enough resources dedicated to treat the uninsured or underinsured.

09:33:33 From Marcus Biswa : How about In Home Healthcare where patient are cared by family.

09:33:51 From Laura Conrad : Mass Medicaid is paying higher rates for complex members, both adults and kids. Many partners had to come together to make this work. and there are still challenges

09:35:32 From Paul Galdys, RI International : AZ RBHAs (Regional Behavioral Health Authorities), who are also Medicaid MCOs doing business in the state, have been operating for decades but have included integration of physical health care since 2014. The integrated payer responsibility does create a clearer path to hold payers (MCOs) responsible for meeting the needs of the individual but, as we are hearing, still requires attention for those with the most complex needs.

09:37:05 From PA - Dale Adair Chief Psychiatric Officer, OMHSAS : Thank you for raising the issue. There are some acute care hospitals which have established units with "co-attendings" medical and psychiatric to address these complex individuals. There is one in Pittsburgh, PA.

09:37:46 From Paul Galdys, RI International : That is fast research!

09:38:03 From Suzanne Rabideau : Thank you for this conversation and it again highlights the need for crisis care continuum must address post crisis care not just the 3 core services. 3

09:38:21 From William Dickson NY : Awesome!

09:38:22 From Amy Cohen, PhD (APA) : A LOW number! Amazing work

09:38:23 From Paul Galdys, RI International : Great job Rep Davis!

09:38:24 From David Covington, LPC, MBA RI International (he/him) : Way to go Rep. Davis!!! Our featured presenter next week
