The National Action Alliance published the Way Forward report in 2014 to create a resource that would convey the voice of suicide attempt survivors, expertly crafted by lead author Dr. DeQuincy Lezine.

The report identified core values to guide helping those at risk. Which was not one of the eight?

A: Engage in supportive listening

B: Provide timely access to care and support

C: Promote Choice & Collaboration

D: Foster hope and help find meaning and purpose

While the report did reference self-care and talking to someone who listens, the primary core values focused on hope, recovery, wellness and connections to care, peers, family and friends.

The report identified core values to guide helping those at risk. Which was not one of the eight?

A: Engage in supportive listening

B: Provide timely access to care and support

C: Promote Choice & Collaboration

D: Foster hope and help find meaning and purpose
