In March, the World Happiness Report (WHR) released its 2023 rankings, with Finland at the top and Afghanistan and Lebanon at the bottom. They also include attempts to explain how and why evaluations vary among countries.

Which of the following is <u>not</u> one of the regressions WHR uses to explain average happiness across countries?

A: GDP Per Capita

B: Healthy Life Expectancy at Birth

C: Perception of Meaning/Purpose

D: Social Support
