Senior Program Director/
Project Director CCBHC,
Community Health
Resources (CHR)

In 2020, Dr. Matthew Goldman conducted an analysis of Arizona Medicaid claims that included over 125,000 crisis services episodes for adults. He focused on escalation to a higher intensity service within 72 hours, e.g., mobile to ED. But most did not receive multiple services.

Which of the following served the most individuals without other supports?

A: Mobile Crisis Only

B: Crisis Receiving Facility Only

C: Hospital Emergency Department Only

D: Psychiatric Inpatient Only

Escalation in crisis services by episode (Arizona)

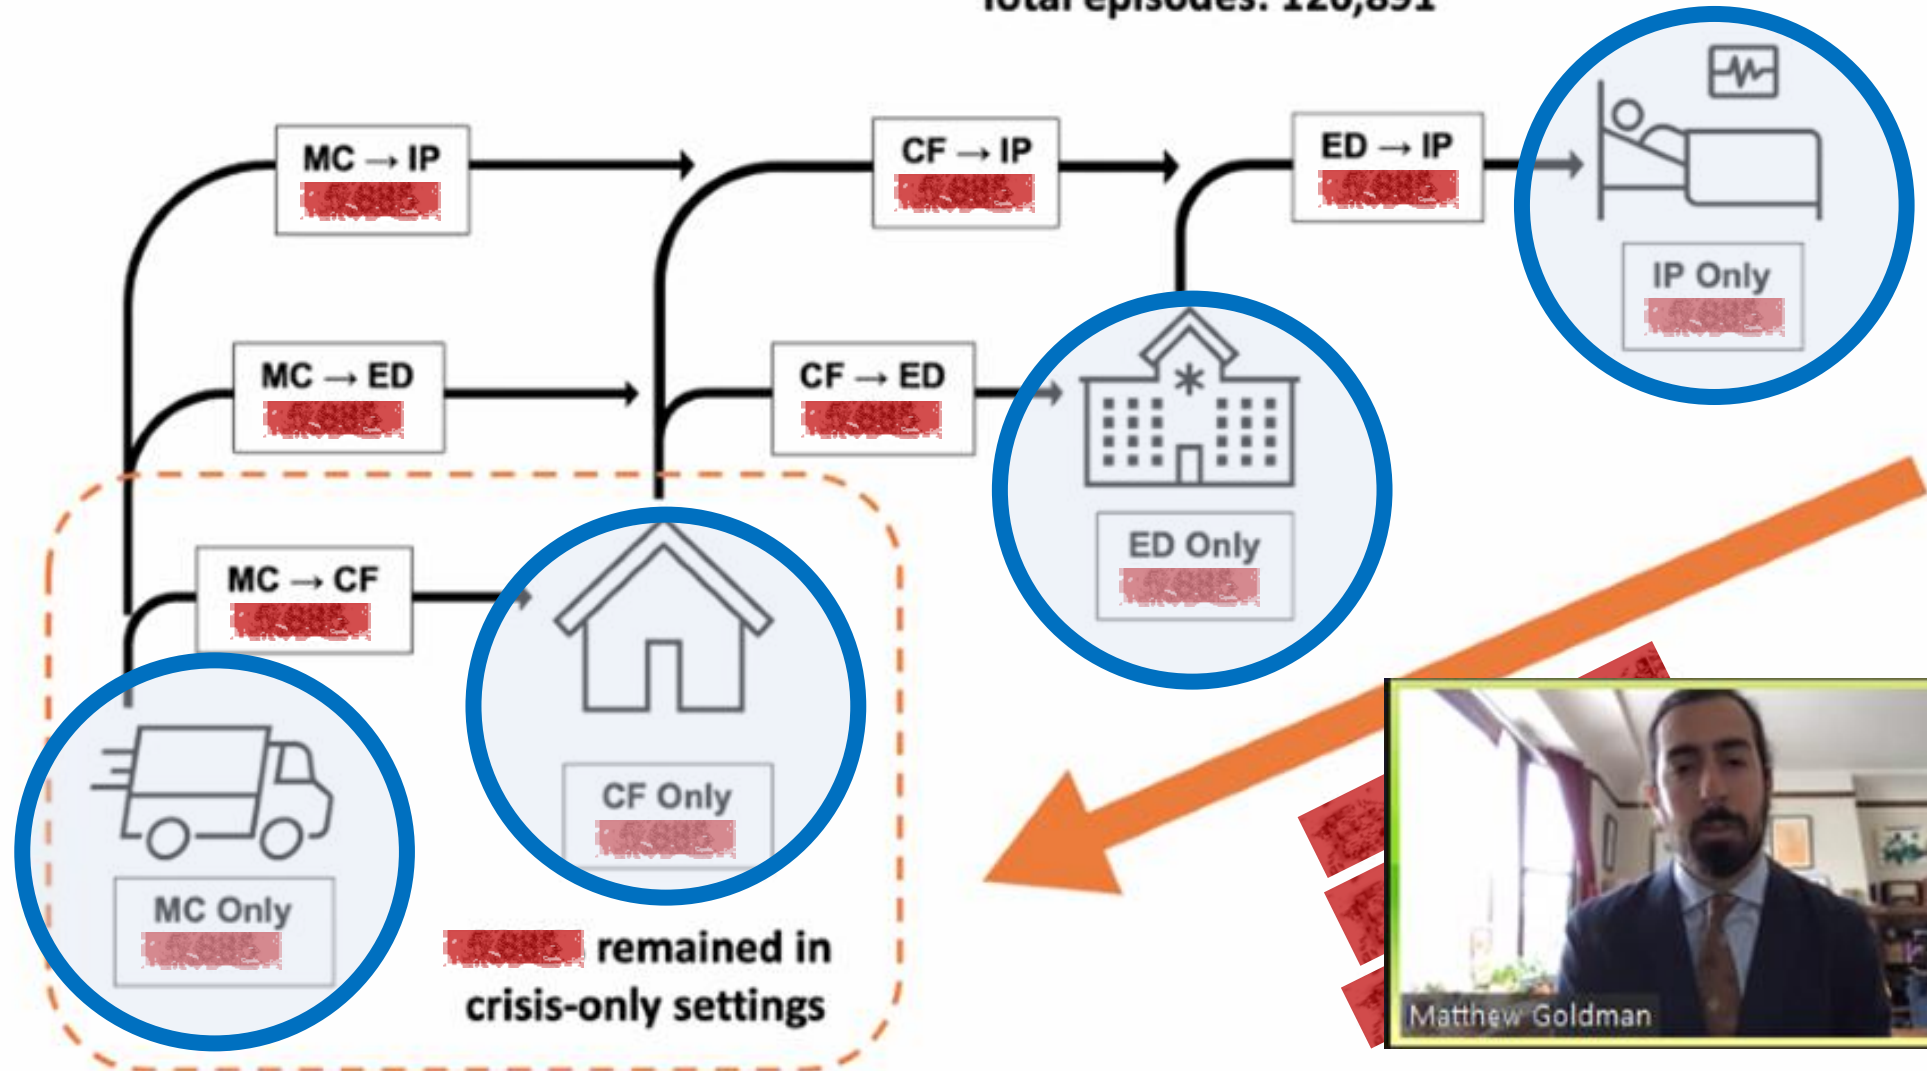

AHCCCS Medicaid claims

10/2017-10/2018

Ages 18-64

Examined if a mobile crisis (MC), crisis facility (CF), emergency dept (ED), or inpatient (IP) service was followed by a higher intensity service within 72 hours

Total episodes: 126,891
