

The Congregational Recovery Outreach Program

Improving Mississippi's Mental Health

We are a community-based, grant-funded program serving Hinds County, Mississippi. The Mississippi Department of Mental Health's Bureau of Behavioral Health Services and it's Division of Alcohol and Drug Addiction Treatment Services funds this program and is in partnership with the Mississippi Public Health Institute.

Our vision is to cultivate a faith-based community where love and support can be felt the most, especially when caring is simply not enough.

The first Mississippi
Mental Health FaithBased Summit was held
on April 24, 2024;
sponsored by Mississippi
Department of Mental
Health (MSDMH),
Mississippi Public Health
Institute (MSPHI), and
Congregational
Recovery Outreach
Program (CROP).
