09:59:20 From sonja burns : Can we do an episode of the families and law enforcement and providers who are watching too many persons cycle (often for decades) because they either can never get the appropriate length of stay - or there is no appropriate residential option for those individuals? Noting - often these individuals are living with anosognosia, and we leave them to the streets and the jails and the emergency rooms because we expect them to engage when they are unable to do so meaningfully.

09:59:30 From Marie Eddy : Thanks for your understanding as we make changes to keep our community safe!
