

The last National Behavioral Health Crisis Care Guidelines was published by SAMHSA in February 2020. In January 2025, SAMHSA's updated National Behavioral Health Crisis Care Guidance was released.

In the 2025 SAMHSA National Guidelines for a Behavioral Health Coordinated System of Crisis Care, which of the following newly emphasized components is highlighted to enhance the continuum of crisis services?

A: Online tools and self-help resources

B: Follow-up care after a crisis episode

C: Integration with primary care settings

D: Implementation of standard assessment protocols

The 2025 guidelines place significant emphasis on follow-up services, recognizing the crucial role in providing continuous support and preventing future crises.
